4K Location Preference: **While we strive to accommodate requests, we do not guarantee parents will get their top preference. MHASD will make final placement decisions.** Site assignments will be based primarily on previous program enrollment at a site and need for wrap-around services. Other factors that are taken into consideration include (but are not limited to) place of residence, special programming needs, transportation, available openings at the site requested, and site occupancy minimums.

**\*\*Please rank your top 4 preferences (1 = first choice) by placing a number (1, 2, 3, 4) in front of the location listed. Forms without 4 choices will be considered incomplete and returned.**
