

IMPORTANT INFORMATION FROM THE BOARD MEETING ON MAY 2, 2016

- 1) The District is in the process of forming a Mental Health Action Team which will help us develop options and provide support for our students. We are planning on having our first meeting within the next couple weeks. Please let me know if you are interested in participating in this community-district team.
- 2) As part of the HVAC project at the High School, the Board approved abatement of asbestos in the water pipe insulation in the tunnels under the building. Abatement of the boiler room area is occurring in the building now. During this entire process, the air quality is being constantly monitored to ensure the safety of our students and staff as well as visitors in the building.
- 3) The 2016-17 Fee Schedule was approved by the Board. The only increase recommended for the upcoming school year is the cost of an extra entrée going from \$1.25 to \$1.50. The fee schedule is available at <http://www.mhasd.k12.wi.us/domain/8>
- 4) The Board approved consideration of a possible referendum for the first phase of the District's master facility plan for April 2017 rather than November 2016. Through a district-wide survey, the master facility plan will be shared with the community and input will be gathered to help determine what the first phase of the work should entail.
